Contact Information	Email: zhangjy9610@gmail.com, zhangjy@nus.edu.sg Address: 10 Lower Kent Ridge Road, Block S17 #05-04, National University of Singapore, Singapore 119076. Personal webpage: https://www.zhangjy9610.me	
Employment	University of Science and Technology of China (USTC) Specially-Appointed Professor (Tenured). May 2025 (expected starting date) ~	
	 National University of Singapore (NUS) Peng Tsu Ann Assistant Professor (Postdoc). August 1, 2022 ~ May 14, 2025. Mentor: Professor Yao Yao. 	
Education	 Johns Hopkins University (JHU) Ph.D. in Mathematics. August 27, 2017~May 22, 2022. Dissertation: The Free-Boundary Problems in Inviscid Magnetohydrodynamics with or without Surface Tension. Advisor: Professor Hans Lindblad. 	
	 University of Science and Technology of China (USTC) B.Sc. in Mathematics. August 14, 2013~June 21, 2017. Thesis: Inviscid dampimg and Asymptotic Stability of PDEs in fluids. Advisor: Professor Lifeng Zhao. 	
Research Interests	 I study fluid PDEs, especially the free-boundary problems of inviscid fluids, such as water waves with vorticity, MHD, elastodynamics, relativistic fluids, liquid crystals, etc. Nonlinear stability of compressible vortex sheets and contact discontinuities in various kinds of fluids with or without surface tension. Singular limits of various types of fluid PDEs, including the low Mach number limit for "ill-prepared data" (especially the free-boundary problems), multi-parameter singular limits (e.g., low Mach number and small Alfven number limits for MHD). Singularity or long-time evolution of free-surface inviscid fluids. 	
PUBLICATIONS & Preprints	 Qiangchang Ju, Jiawei Wang, Junyan Zhang. Uniform Anisotropic Regularity and Low Mach Number Limit of Non-isentropic Ideal MHD Equations with a Perfectly Conduct- ing Boundary. arxiv:2412.09943, preprint. Jiawei Wang, Junyan Zhang. Low Mach Number Limit of Non-isentropic Inviscid Elas- todynamics with General Initial Data. arxiv:2412.09941, preprint. Junyan Zhang. On the Incompressible Limit of Current-Vortex Sheets with or without Surface Tension. arxiv:2405.00421, preprint. Junyan Zhang. Well-posedness and Incompressible Limit of Current-Vortex Sheets with Surface Tension in Ideal Compressible MHD. arxiv:2312.11254v3, preprint. Jiawei Wang, Junyan Zhang. Incompressible Limit of Compressible Ideal MHD Flows inside a Perfectly Conducting Wall. J. Differ. Equ., Vol.425, 846-894 (2025). Chenyun Luo, Junyan Zhang. Compressible and Zero-Surface-Tension Limits. arxiv:2211.03600, preprint.

A Regularity Result for the Incompressible Magnetohy- drodynamics Equations with Free Surface Boundary. Nonlinearity, 33(4), 1499-1527
Referee Services	 So far I have been a reviewer for the following journals. Arch. Rational Mech. Anal.(2), SIAM J. Math. Anal.(1), Nonlinearity(2), J. Differ. Equ.(1), J. Math. Phys(1).
Invited Talks and Mini-Courses	 Incompressible limit of non-isentropic ideal MHD with a perfectly conducting boundary: Institute of Applied Mathematics, AMSS, Chinese Academy of Sciences, July 15 2024, Dec 02 2024; Ist Asian-Pacific International Conference on Dispersive Equations (APICDE), Jimei University, Oct 30 2024; School of Mathematical Sciences, Peking University, Dec 02 2024; Workshop on "Old and New Challenges in Fluid Equations", National University of Singapore, Dec 19 2024; Institute of Mathematics and Interdisciplinary Sciences, Nanchang University, Jan 08 2025. Well-posedness and incompressible limit of current-vortex sheets in ideal compressible MHD: National University of Singapore, Nov 1 2023; University of Science and Technology of China, Dec 5 2023; Institute of Mathematical Sciences, The Chinese Academy of Sciences, Dec 19 2023; Morningside Center of Mathematics, Chinese Academy of Sciences, Dec 20 2023; Institute of Mathematical Sciences, The Chinese University of Hong Kong, May 22 2024; The 19-th international conference of "Hyperbolic problems: theory, numerics and applications", Shanghai Jiao Tong University, July 2 2024. The Free-boundary Problems in Inviscid Compressible Fluids (Mini-Course): School of Mathematical Sciences, University of Science and Technology of China, June 28–29 2023; Institute of Mathematics and Interdisciplinary Sciences, Nanchang University, June 4–6 2024.

	 On the motion PDE & Scienti Institute of Ma Institute of Ap Local well-pol organised by L Anisotropic reg Institute of Ma Analysis & PL PDE Seminar, Analysis of Fli Local well-pol namics, Webin Local well-pol MHD equation Local well-pol Science and Te On the free-bo sity of Science On the Incomp 	of compressible gravity-capillary water waves with vorticity: ific computing seminar, National University of Singapore, Aug 26 2022; athematical Sciences, The Chinese University of Hong Kong, May 19 2023; pplied Physics and Computational Mathematics (Beijing), Apr 12 2024. sedness of incompressible ideal MHD with surface tension. PDE seminar Looi Shi-Zhuo, March 23 2022. gularity of free-boundary compressible ideal MHD: athematical Sciences, The Chinese University of Hong Kong, Oct 14 2021; DE Seminar, UC Berkeley, Oct 25 2021; Vanderbilt University, Nov 5 2021; uids Seminar, Princeton University, Feb 17 2021. sedness and incompressible limit of free-boundary compressible elastody- nar on APDE, June 5 2021. sedness and incompressible limit of the free-boundary compressible resistive as, Wuhan University, Jan 10 2021. sedness for the motion of compressible gravity water wave, University of echnology of China, Nov 6 2020. undary problem of MHD equations with or without surface tension, Univer- e and Technology of China, Dec 23 2019. pressible MHD with or without Surface Tension, Institute of Mathematics,	
Academic Visiting	 The Chinese U 2024. 	emy of Sciences, May 23 2019. Jniversity of Hong Kong. May 10 2023-June 10 2023, May 13 2024-May 25	
Conferences & Workshops Attended	 Workshop on "Old and New Challenges in Fluid Equations", Singularities in fluids and general relativity, National University of Singapore, Dec 16-20 2024. The 1st Asian-Pacific International Conference on Dispersive Equations (APICDE), Jimei University, Oct 27-Nov 1 2024. The 19-th international conference of "Hyperbolic problems: theory, numerics and applications", Shanghai Jiao Tong University, July 1-July 5 2024. Mathematics of Fluid Dynamics program, UC Berkeley MSRI, Jan-May 2021 (online due to the COVID-19 pandemic). Long Time Behavior and Singularity Formation in PDEs, New York University Abu Dhabi, May 2020 and Dec 2020 (online due to the COVID-19 pandemic). 2019 Southern California Analysis and PDE Conference, UCSD, November 2019. Summer School on Mathematical General Relativity and the Geometric Analysis of Waves of Fluids, MIT, June 2018. 		
TEACHING	National University of Singapore (Instructor)		
	2025 Spring 2024 Spring 2023 Spring	Advanced Partial Differential Equations (Graduate) Partial Differential Equations Partial Differential Equations	
	Johns Hopkins U	niversity (TA/Grader)	

2022 Spring	Honor Analysis II, ODE
2021 Fall	Introduction to Proofs, Graduate Real Analysis
2020 Fall	Honor Analysis I, ODE
2020 Spring	Honor Analysis II, Undergrad PDE
2019 Fall	Honor Analysis I, Graduate Real Analysis
2019 Spring	Honor Analysis II, Calculus II (Engineering)
2018 Fall	Calculus II (Engineering)
2018 Spring	Undergrad PDE
2017 Fall	Undergrad Complex Analysis, Calculus I (Engineering)

University of Science and Technology of China (TA)

2017 Spring	Differential Equations II (Graduate)
2016 Fall	Advanced Real Analysis (Graduate)
2016 Spring	Honor Real Analysis
